

### EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John A. Merecki (Reg. No. 35,812) on 21 March 2008.

2. The application has been amended as follows:

a) **Claim 13, line 1: replace** "loadable" **with** --loaded--.

3. The following is an examiner's statement of reasons for allowance:

a) The art of record used as the basis for the previous rejection, Hennum (US Pat: 6,259,445) and Cooper (US Pat: 6,871,348), do not expressly teach or render obvious the invention as recited in independent **Claims 1, 7, and 13**.

b) As to **Claim 1**, the art of record does not expressly teach selectively running the source code element displayed in the code window, wherein results of the running are displayed in a results window in the display interface simultaneously with the list of tutorial steps, the code window and the explanation window, when taken in the context of the claim, as a whole. Also, there is no basis in evidence for asserting a motivation that one of ordinary skill in the art at the time of invention was made would have

modified the method as described to combine the limitations as recited in the context of **Claim 1**.

b) As to independent **Claims 7 and 13**, these claims are allowable for the same reasoning as applied to **Claim 1**.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
